LARGE TANK OPENING FOR FAST FILLING

E26 ECO | 26" WALK-BEHIND SCRUBBER

E26 ECO | PRODUCT FEATURES

The E26 ECO is a disc brush scrubber with a 26" cleaning path and is available in traction drive. It is a cost effective solution to large scrubbing needs. Advanced technology makes the E26 ECO a part of the innovative walk-behind scrubber line, the E Series. Easy-to-understand controls ensure that the machine is simple to operate. The compact and sleek design results in total operator comfort by focusing on ergonomics and provides an excellent line of sight to the area to be cleaned. The offset brush head gives the operator a greater view of all the cleaning operations and the compact scrubber contains a large scrub head to allow an optimal cleaning performance. The adjustable handle and ergonomic hand bails offer superior handling of the machine and the traction drive models offer ergonomic, adjustable speed regulation with the turn of a dial. The E26 ECO contains an on-board charger that is convenient and allows the machine to be charged anywhere. When the on-board charger is plugged in, the machine is not operable. The E26 ECO also features easy brush loading and unloading. A parabolic squeegee is standard on the traction drive model. The squeegees are designed so that no operator adjustment is necessary. This vacuum contains a 12 gallon solution tank and an easy-to-clean, hygienic, 13 gallon recovery tank.

E26 ECO TECHNICAL DATA

Cleaning Path Width	26"	Aqua-Stop Equipped	Yes
