

57,479 SQ. FT. PER HOUR

EASY MANUVERABILITY & ERGONOMIC OPERATOR COMFORT

BIG PRODUCTIVITY IN COMPACT PLATFORM

KS32R | RIDER SWEEPER

KS32R | PRODUCT FEATURES

When considering the dust-free cleaning of small and medium-sized areas, you can't do better than the KS32R. It works according to the over-throwing principle which ensures the hopper is filled to capacity. It works according to the over-throw hopper principle which ensures the hopper is filled to capacity. This promotes uninterrupted work and a constant, first class sweeping performance. To ensure the machine continues to provide consistent cleaning results, the filter in the insert can be shaken clean. The robust, Steel frame construction is heavy-duty quality which means the Minuteman Kleen Sweep 32R is a machine for professional use that can clean surfaces thoroughly and efficiently. The Kleen Sweep 32R offers operators simple conveniences such as maintenance free batteries, on-board charging station, wet sweep bypass, large hopper capacity and quiet operation.

Large Removable Hopper Design

Side Broom Safety Bar

On-Board Charger
